

NEELKANTH

RUBBER MILLS

Hygienic Conveyor Belt

At Neelkanth Rubber Mills, our Hygienic Conveyor Belts are specifically designed to meet the strict cleanliness and safety requirements of industries such as food processing, pharmaceuticals, and other sensitive environments. Made from FDA-compliant, food-grade materials, these belts ensure product safety by preventing contamination while maintaining durability and reliability in challenging conditions. Their seamless, non-porous surfaces are easy to clean and resist bacteria buildup, making them ideal for environments with rigorous hygiene standards.

Engineered for performance, our belts are resistant to oils, chemicals, and temperature extremes, ensuring reliability in diverse applications like food production lines, pharmaceutical packaging, and beverage bottling. With tailored solutions to meet specific industry needs, Neelkanth's Hygienic Conveyor Belts deliver unmatched quality and peace of mind, ensuring optimal efficiency and compliance with global safety standards.

Belt Offerings:

Ply Range: 1 to 5

Width: Upto 1200 mm

Cover Grade	Country	Standard	Minimum Tensile Strength (MPa)	Minimum Elongation at Break (%)	Maximum Abrasion Loss (mm ³)
AS- HG	Australia	AS 1332-2000	15	400	250
DIN- HG	Germany	DIN22102	12	350	150
IS HYGENIC	India	IS:1891: Part 4	10	350	200
RMA- HY	U.S.A	RMA	10	350	175
